YOUR PERFECT FIT FROM START TO FINISH

JOINING SOLUTIONS FROM FRIMO INNOVATIVE TECHNOLOGIES

At FRIMO Innovative Technologies, we are focused on delivering the perfect technology and service fit to the individual customer demands. This includes consulting, manufacturing technology and automation solutions for the production of high-class plastics and composite components.

FRIMO offers a wide range of products and services for tooling and machinery equipment. Customers benefit from our comprehensive technology expertise in **PU Processing, Flexible Trimming, Punching, Pressing/Forming, Thermoforming, Press Laminating, Edge Folding, Welding and Gluing**, as well as from our support along all necessary upstream, intermediate and downstream process steps. We are your reliable partner for thinking outside the box and realizing innovative and sustainable production solutions for your ideas and newly developed materials.

Joining solutions by FRIMO Innovative Technologies offer project specific advantages, e.g. improved efficiency and flexibility, simplified application or production process, integration of functions, bundling of technologies and reduction of production cycles and assembly times.

Bring your ideas into production - We look forward to supporting you in future projects.
