

# SURFACE SOLUTIONS FROM START TO FINISH

## SERVICE FROM START TO FINISH

We support our customers from start to finish, from the early development phase until series production and After Sales Service. Together, we bring your ideas into production.

## SURFACE SOLUTIONS FROM FRIMO INNOVATIVE TECHNOLOGIES

At FRIMO Innovative Technologies, we are focused on delivering advanced **Thermoforming**, **Press Laminating** and **Edge Folding Solutions**. Our production equipment will support you transforming your vision into high-quality decorative products to stay ahead in a competitive market.

Customers also benefit from our comprehensive technology expertise in **PU Processing**, **Flexible Trimming**, **Punching**, **Pressing/ Forming**, **Welding** and **Gluing**, as well as from our support along all necessary upstream, intermediate and downstream process steps.

### FRIMO PRESS LAMINATING

- Pre-fixing stations
- Tooling
- Single-station press laminating machines with electrically-driven upper platen or turntables
- Double or linear press laminating machines with independent operating stations
- FABL® Technology
- Groove laminating
- Duotherm technology
- Membrane press laminating

Thermoforming, Press Laminating and Edge Folding solutions by FRIMO Innovative Technologies offer project specific advantages, e.g. cost saving, reducing of CO<sub>2</sub> footprint/emissions, improved energy efficiency, material saving, simplified application or production process, integration of functions, bundling of technologies and reduction of production cycles and assembly times.

Your technology fit for decorative surfaces - We look forward to supporting you in future projects.

### FRIMO EDGE FOLDING

- Tooling
- Single-station equipment
- Inline solutions
- Combined machines
- Adapted slider designs
- Adhesive-based/Adhesive-free
- Smart Energy Heating (hot air)
- IR heating

### FRIMO AUTOMATION

- Linear transfers
- Handling robots
- Gripper technology
- Tool change systems
- Robot glue application

### FRIMO THERMOFORMING

- Tooling
- IMG tools
- Single-station machines
- Inline machines
- IMG machines
- Rotary machines
- Combined solutions
