SERVICE FROM START TO FINISH

We support our customers from start to finish, from the early development phase until series production and After Sales Service. Together, we bring your ideas into production.

LIGHTWEIGHT SOLUTIONS FROM FRIMO INNOVATIVE TECHNOLOGIES

At FRIMO Innovative Technologies, we are focused on delivering the perfect technology and service fit to the individual customer demands. This includes consulting, manufacturing technology and automation solutions for the production of high-class plastics and composite components.

FRIMO offers a wide range of products and services for tooling and machinery equipment. Customers benefit from our comprehensive technology expertise in **PU Processing, Flexible Trimming, Punching, Pressing/Forming, Thermoforming, Press Laminating, Edge Folding, Welding and Gluing**, as well as from our support along all necessary upstream, intermediate and downstream process steps. We are your reliable partner for thinking outside the box and realizing innovative and sustainable production solutions for your ideas and newly developed materials.

FRIMO TOOLING TECHNOLOGY

- NFPP Hybrid & OneShot tools
- Organo sheet injection tools
- Preforming tools
- RTM tools
- WCM tools
- Compression tools
- Forming tools
- Combination tools

Lightweight solutions by FRIMO Innovative Technologies offer project specific advantages, e.g. cost saving, reducing of CO₂ footprint/emissions, improved energy efficiency, material saving, simplified application or production process, integration of functions, bundling of technologies and reduction of production cycles and assembly times.

Bring your ideas into production - We look forward to supporting you in future projects.

FRIMO PERIPHERAL EQUIPMENT

- Injection units
- Material transport & cutting
- Mixing & metering equipment
- Tool change systems
- Ventilation systems
- Safety technology

FRIMO PRESSING & FORMING TECHNOLOGY

- Compression molding
- RTM presses
- Heating & calibration presses
- Preform presses

FRIMO AUTOMATION

- Linear transfers
- Handling robots
- Gripper technology
